Carlson Software Training Atlanta, Georgia

Introduction to Carlson Software with CAD Refresher

July 27-28, 2009

\$ 649 for two days of training

This 12-hour hands on training over 2 days will focus on the basics of Carlson Software along with a review of some AutoCAD/IntelliCAD features that will assist in working with Carlson.

Some of the CAD topics to be covered are: drawing template setup, text & linetype sizing, layer management and working with polylines.

Some of the Carlson topics to be covered are: project management, working with points and basics of surface modeling.

Please bring your own laptop or call to reserve one of ours. Software will be provided if needed.

Surface Modeling with Carlson Software

June 29-30, 2009

\$ 649 for two days of training

This 12-hour hands on training over 2 days will focus the creation of both existing and proposed surfaces.

Some of the topics to be covered are: surface modeling from points and breaklines, surfaces from contours and/or proposed breaklines, how to daylight slopes and volume calculations. Some time will also be spent in discussion or exercises to work toward taking 2D drawings and making them into 3D models suitable for machine control surface files.

Please bring your own laptop or call to reserve one of ours. Software will be provided if needed.

Register here: <http://acteva.com/booking.cfm?binid=1&bevalD=183089>
