

INTERSECT™

People Technology Ideas

Intersecting people with GIS technology and ideas is what we do best.

Intersect™, is a **GIS consulting firm** with a **WBE** (Women Business Enterprise) distinction. Janet Jackson, GISP is owner and principal and has over 15 years of geospatial experience in a variety of public and private GIS consulting roles.

Ms. Jackson has served as project manager on projects including data collection, GIS implementations, needs assessments, and CAD to GIS conversions.

Clients include the City of Greensboro, University of North Carolina at Chapel Hill, Duke University, North Carolina Railroad Company, City of Burlington, the City of Winston-Salem, Stewart Engineering and Hillsborough Co., FL.

Janet Jackson, GISP
President / Owner

INTERSECT™ the monthly column gives advice about how you can extend your professional services by combining them with GIS.

CE News, Geo World and **Professional Surveyor** magazine include Intersect in their monthly features column. The articles are available online at each magazines website. Check them out!

GIS – See Results

Training - Customized on site training extends your firm's skills, not personnel

Needs Assessment - Let Intersect help map your success *and* meet your goals

CAD - Integrate computer-aided design (CAD) drawings with GIS to extend your investment

Recruiting – Need GIS staff? Intersect assists with job descriptions and interviewing

Staffing - Let Intersect be your GIS department – cost effective and always on duty

Custom Maps - Prepared for presentations and exhibits, on time and as needed

Work Order Management System – Expand your data's reach and your team's efficiency

Field Work – GIS Data collection for just a few or hundreds of items – Intersect is ready

Data Analysis – Intersect can make sense of your data for the big decisions

Consulting – GIS guidance for you, or your clients – Talk to us!
